

WHAT IS ON AN AMBULANCE?

Label the pictures using the words below to identify what would be found on an ambulance or what may be used on arrival at the hospital. The child can cut and stick the labels or write them.

Gloves	Drip	Oxygen Mask
Wheelchair	Dressings	Thermometer
Stretcher	Heart Monitor	Blood Glucose Meter
Defibrillator	Mask	Pulse Oximeter
Dressings	Stethoscope

Discussion points for parents/carers:

- The purpose of this activity is to give children a better understanding of what medical equipment may be used in an emergency so that they would feel more comfortable and less fearful should an emergency arise.
 - Ask the children what they think each of the items is used for and explain for them if they're unsure.
- If your child has a doctor's kit at home they can use that to role play!
